Amped4Life was registered as a Charitable Trust in September 2002 and has offices in Auckland and Tauranga. Amped was formed to be a proactive part in our communities fight against drug and alcohol abuse and addiction. It is here to help our young people to make informed and wise choices for life.

Amped4Life continues to reach out to High Schools and community groups throughout the country. For more than 15 years, Amped4Life has supported Schools, Industry and Community to deal with substance use and addiction problems.

“Pat is the kind of person we need to hammer into young people the terrible effects drugs and wrong choices can have on their lives. Pat himself made some terrible choices as a young man and has been drug and alcohol free for over twenty years.

He is a good man who loves his family. I have no hesitation in recommending Pat Buckley as a guest speaker to every school in the country. All of your young people should see and hear Pat once. In fact, I think he should be compulsory.”

~ Paul Holmes
